

Summary of carboNZero certification:

Transport Fleet Management Limited
(trading as Fleetwise)

Transport Fleet Management Limited (trading as Fleetwise) meets the requirements of carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1: 2006, committed to managing and reducing its emissions and neutralised its remaining unavoidable emissions through the cancellation of an appropriate number of verified carbon credits in respect of the operational activities of its organisation.

Introduction¹ – Transport Fleet Management Limited (trading as Fleetwise) is New Zealand’s leading independent and only carboNZero certified fleet management company and has been providing vehicle fleet management and administration services to a range of clients throughout New Zealand for more than 15 years. Over this time Fleetwise has built an excellent and consistent reputation in all areas of fleet and transport services. As a specialist fleet management company, Fleetwise is also committed to the concept of sustainability and recognise this to be another key determining factor in the effective supply and management of a vehicle fleet. By adopting an environmentally responsible attitude and reflecting this in its business practice it not only means we ourselves can make a positive contribution to growing international concerns, but we can do the same on behalf of our clients. The overall aim for Fleetwise when delivering fleet management services is to provide an optimal and efficient fleet of the most suitable fit for purpose vehicles for the operation. Fleetwise then works to closely manage the life cycle of every vehicle in order to ensure utilisation is maximised and the operation is increasingly cost effective.

Boundary – The boundary for the preparation of Fleetwise’s greenhouse gas (GHG) inventory is for one site. All business activities have been included.

Consolidation approach – operational control

Base year – 01/10/2006 to 30/09/2007

Measurement period – 01/10/2009 to 31/03/2011
(Note: Reporting year represents 18 months)

¹ **Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. While every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Landcare Research does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

Summary of carboNZero certification:

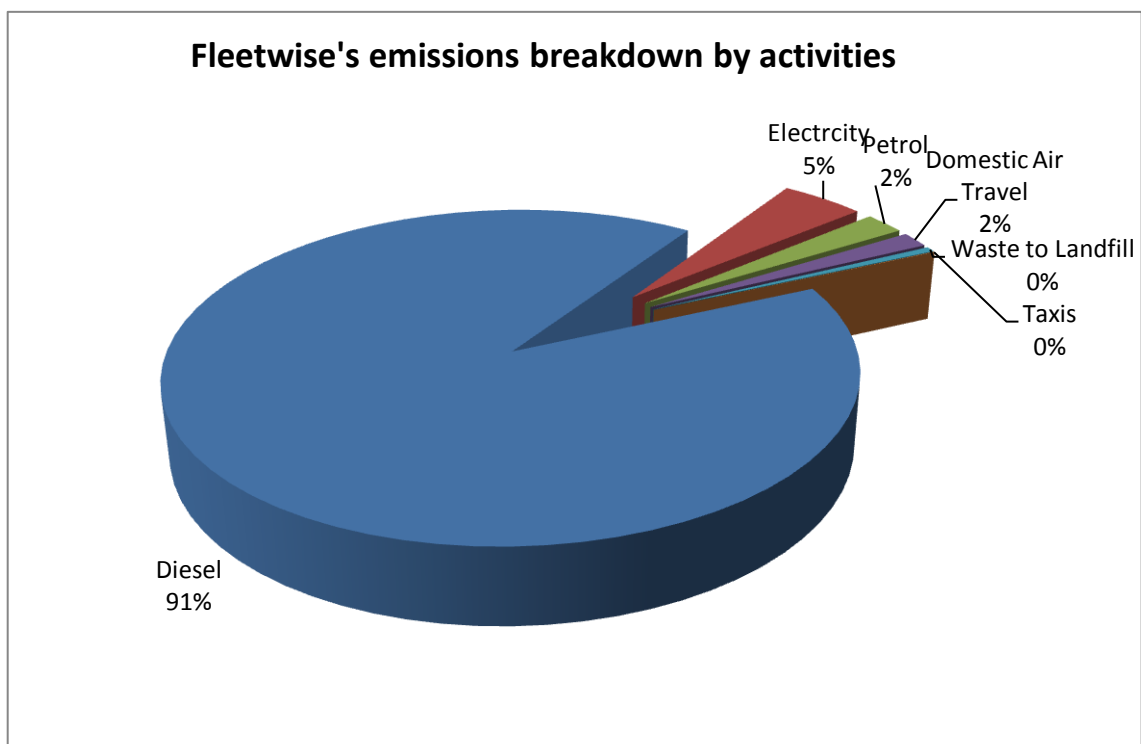

Transport Fleet Management Limited
(trading as Fleetwise)

Emissions source inclusions – the diagram below shows the operational GHG emissions for Fleetwise by emissions source. Fleetwise's total emissions for this period were 88.33 tonnes carbon dioxide equivalents (tCO₂e) comprising:

Scope 1: 82.34 tCO₂e

Scope 2: 4.12 tCO₂e

Scope 3: 1.88 tCO₂e

Emissions source exclusions – Courier use is excluded as it was estimated to be *de minimis*.

Emissions reduction commitments – Fleetwise has developed a GHG emissions reduction plan. Some projects in this plan include:

- Improve overall fuel consumption based on total litres per 100km – to be tracked monthly
- Reduce Electricity kWh per employee
- Increase recycling

Emissions reductions and removals

Base year GHG emissions = 77.66 tCO₂e

Summary of carboNZero certification:

Transport Fleet Management Limited
(trading as Fleetwise)

GHG emissions calculated for this reporting period = 88.34 tCO₂e

Difference in GHG emissions = 10.68 tCO₂e

Additional comments or notes: This certification period is 18 months instead of 12 months.
Based on our KPI we have reduced our GHG emissions by 3.67% on the base year.

Offset – 87 tCO₂e. EBEX21 Native Forest Regeneration Projects (PFSI Compliance). Serial numbers 801799-801885 have been cancelled (or equivalent) on the New Zealand Emissions Unit Register. (Taking into account double counting of 1.55 tCO₂e from Meridian Energy, the offset requirement is 86.78 tCO₂e, rounded up to 87 carbon credits.)

Verified by – Green Fox Limited

Threshold of materiality – excluded emissions do not exceed 5% of the total footprint for organisation and product boundary stated.

Level of assurance – Reasonable assurance

Certification status – carboNZero certified “organisation”

Certificate number – 2011100J

Valid until – 31 July 2014
