

Summary of carboNZero certification:

evolu NZ Limited

evolu NZ Limited meets the requirements of the carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1: 2006, committed to managing and reducing its emissions and neutralised the remaining unavoidable emissions in respect of the operational activities of its organisation.

Introduction¹ – evolu NZ Limited (evolu) designs and markets a range of botanical skincare products under the brand name evolu. The products are manufactured under licence to evolu by contract cosmetic laboratories in New Zealand. evolu Limited distributes and markets its products through its wholly owned subsidiary evolu NZ Limited. Natural balance for healthy skin is the ethos of the evolu brand. Inspired by founder Kati Kasza's personal philosophy, this principle of balance also guides her company's focus on sustainability. As a strongly ethical company evolu believes in balancing environment-conscious thinking with actions that are practical and measurable. evolu is motivated by the mantra 'act globally, think locally', and seeks to make values-based choices that help make a contribution to addressing climate change. As a result evolu has highly efficient and streamlined operations, which help minimise its emissions, and evolu's ongoing commitment is to apply the discipline of carboNZero certification to the areas of its business where further genuine differences can be made.

Boundary – The boundary for the preparation of evolu's greenhouse gas (GHG) inventory is for one site. All business activities have been included.

Consolidation approach – operational control

Base year – 1/02/2008 - 31/01/2009

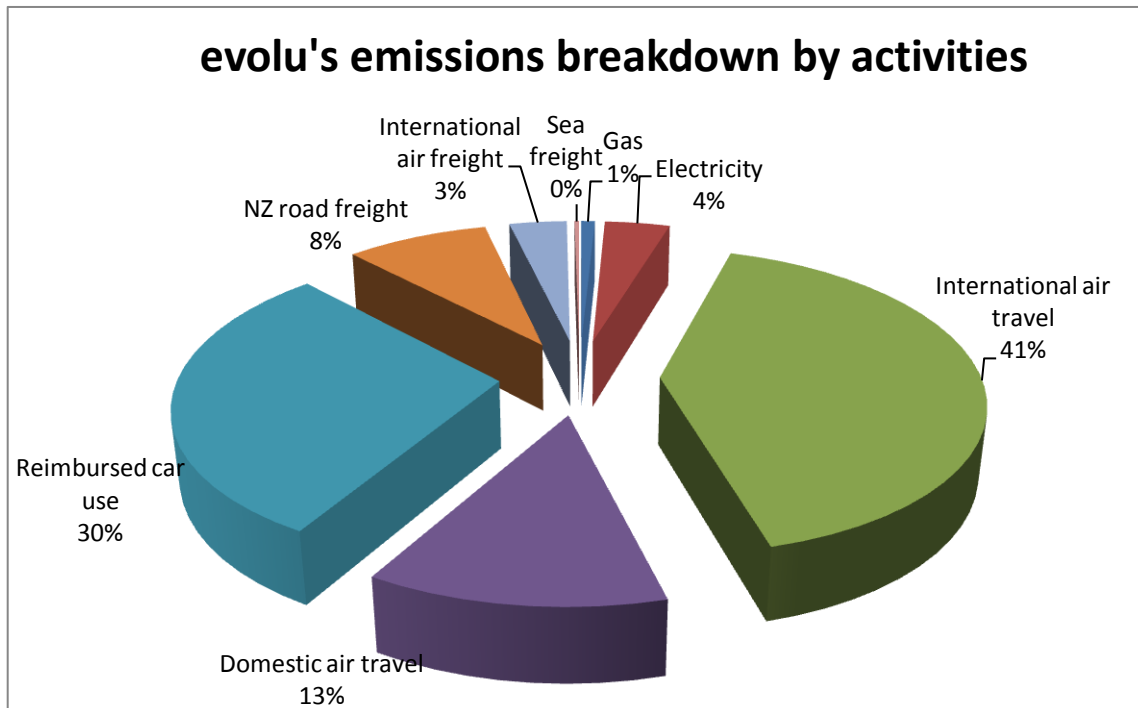

Measurement period – 1/02/2010 - 31/01/2011

GHG emissions source inclusions – the diagram below shows the operational GHG emissions for evolu by emissions source. evolu's total emissions for this period were 37.79 tonnes carbon dioxide equivalents (tCO₂e) comprising:

Scope 1: 7.02 tCO₂e
Scope 2: 1.19 tCO₂e
Scope 3: 29.58 tCO₂e

¹ **Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. While every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Landcare Research does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

evolu NZ Limited

GHG emissions source exclusions – all road freight for NZ online customers and air freight to overseas online customers as of 2010 has been excluded as now charged to customers. Freight related to sourcing packaging for contract manufacturer is excluded as proven to be *de minimis*. Freight used to acquire raw materials is excluded as this is paid for by contract manufacturers

GHG emissions reduction commitments – evolु NZ Limited has developed a GHG emissions reduction plan. Some projects in this plan include:

- Minimise international and domestic air travel
- Optimise inventory control to minimise production surpluses
- Reduce international airfreight by 50% by the end of the financial year
- Reduce petrol use by 10% by end of the financial year

Offset – 38 tCO₂e. Meridian Gold Standard Windpower Projects. Serial numbers 417742-417779 have been cancelled (or equivalent) on the Markit Environmental Registry.

Verified by – Green Fox Consulting Limited.

Threshold of materiality – excluded emissions do not exceed 5% of the total footprint for organisation and product boundary stated.

Summary of carboNZero certification:

evolu NZ Limited

Level of assurance – Reasonable assurance

Certification status – carboNZero certified “organisation”

Certificate number – 2011074J

Valid until – 31 May 2014
