Nature Shop Limited

Year 2 of 3 Year Certificate Period

Nature Shop Limited meets the requirements of the carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1:2006, committed to managing and reducing its emissions and neutralised its remaining unavoidable emissions through the cancellation of an appropriate number of verified carbon credits respect of the operational activities of its organisation, including its United Kingdom distribution store.

Introduction¹ – Natureshop Limited is an online retailer selling quality natural fibre products to an international customer base. We are seeking to measure, reduce and where we cannot eliminate our emissions (such as air freight), offset our carbon footprint. We are committed to making a difference to the environment beyond just reducing and offsetting our carbon emissions. We see the carboNZero certification as the first logical step towards achieving our goals.

Boundary – Figure 1 below shows the organisational structure used for describing the organisation’s greenhouse gas (GHG) emissions inventory. The boundary for the preparation of Natureshop’s GHG inventory is for two sites. All business activities have been included.
