

Summary of carboNZero certification:

Coselle Limited (trading as Snowberry) (formerly Endue Limited)

Year 2 of 3 Year Certificate Period

“Coselle Limited (trading as Snowberry) (formerly Endue Limited) meets the requirements of the carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1:2006, including additional life cycle emissions associated with its Snowberry products, committed to managing and reducing its emissions, and neutralised its remaining unavoidable emissions through the cancellation of an appropriate number of verified carbon credits in respect of its organisation, and its Snowberry products¹.”

SNOWBERRY

Introduction² – Coselle Limited designs, manufactures, packs and markets a range of cosmeceutical products under the brand ‘Snowberry’. Coselle Limited markets Snowberry through its wholly owned subsidiary Snowberry New Zealand Limited.

Snowberry incorporates natural herbal oils, herbal extracts and naturally-derived peptide complexes from around the world.

Boundary – The diagram below shows the organisational structure used for describing Coselle Limited’s greenhouse gas (GHG) emissions inventory, and what business units were included in the carboNZero certification. Yellow business units were excluded from the certification. Figure 2 show the reporting boundaries for Coselle Limited’s product.

GHG emissions source exclusions – Staff commuting as been excluded as it is considered to be outside the operational boundary.

GHG emissions reduction commitments – Coselle Limited has developed a GHG emissions reduction plan. Some projects in this plan include:

- Minimising international air freight and travel through careful planning of the number of international trips and lengthening the stay if necessary.
- Coselle Limited has dispensed with its fleet of vehicles and depends more on periodic meeting planning, IT communication and reduced travel.
- Efficiencies have been gained in manufacturing process and will continue to be addressed.
- Electricity consumption saving technology to be introduced.

GHG emissions reduction report against last year's plan – Coselle Limited has achieved GHG emissions reductions for this reporting period, and its total emissions have decreased by 44% over the previous 12 month period. Emissions intensity of the Snowberry product has been one key performance indicator (KPI) for comparison. For this reporting period, the carbon intensity of 1 kg of the Snowberry products has dropped from 192.93 (2009/10) to 107.35 in 2010/11 year (with a target of 118.76 gCO₂e for the coming year).

Offset – 119 tonnes CO₂e. WINDFARM Turkey Yunttag Wind GS credits. Serial numbers 11000065-11000183 have been cancelled (or equivalent) on Gold Standard Registry.
