

Summary of carboNZero certification:

Green Fox Consulting Limited

Green Fox Consulting Limited meets the requirements of carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1, committed to managing and reducing its emissions and neutralised the remaining unavoidable emissions in respect of the operational activities of its organisation.

Introduction¹ – At Green Fox Consulting Limited we work with organisations that are broadening their approach to business as usual by incorporating environmental and social initiatives into their bottom line. Whether an organisation is large or small, the issues simple or complicated, we believe that through knowledge, effective design and commitment, organisations can make a positive contribution to society and the environment. At Green Fox Consulting Limited we also believe that through growing sustainable, ethical and profitable organisations we can earn a living today that is not at the expense of tomorrow.

Boundary – The boundary for the preparation of Green Fox Consulting Limited's greenhouse gas (GHG) inventory is for one site. All business activities have been included.

Consolidation approach – operational control

Base year – 01/09/2009 to 31/08/2010

Measurement period – 01/09/2009 to 31/08/2010

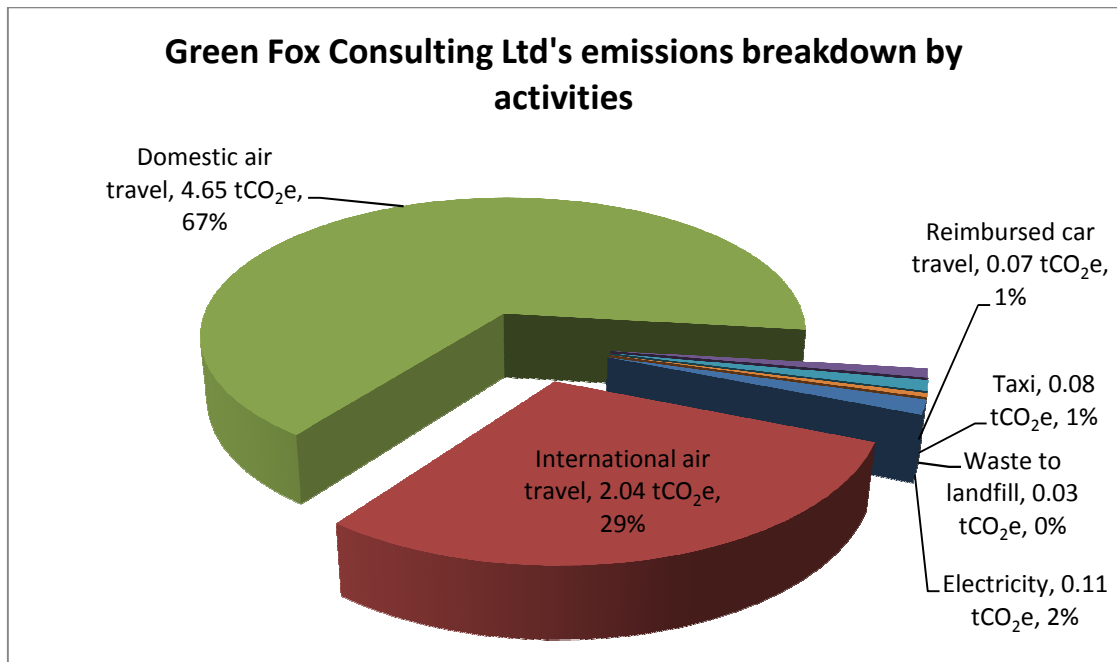

GHG emissions source inclusions – the diagram below shows the operational GHG emissions for Green Fox Consulting Limited by emissions source. Green Fox Consulting Limited's total emissions for this period were 6.98 tonnes carbon dioxide equivalents (tCO₂e). The breakdown of the total emissions by Scope was:

Scope 1: 0 tCO₂e;

Scope 2: 0.11 tCO₂e

Scope 3: 6.87 tCO₂e.

¹ **Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. While every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Landcare Research does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

GHG emissions source exclusions – Courier activities under 2kg was excluded from this inventory as allowed within the programme's de minimis rule.

GHG emissions reduction commitments – Green Fox Consulting Limited has developed a GHG emissions reduction plan. Some projects in this plan include:

- Increase the number of audits undertaken for each return flight to main centres e.g. Wellington and Christchurch. Aim for at least 50% of business travel to be for more than one purpose.
- Reduce taxi transport by 10% by taking more public transport.

Offset – 7 tonnes CO₂e. VERs² from EBEX21³ biodiversity projects. Serial numbers 111307-111313 have been cancelled (or equivalent) on the carboNZero Programme Registry.

Verified by – carboNZero Strategic Business Unit

Threshold of materiality – excluded emissions do not exceed 5% of the total footprint for organisation and product boundary stated.

Level of assurance – reasonable assurance

² VERs are created by eligible projects for emissions reductions achieved up to the end of 2007.

³ EBEX21 – Emissions Biodiversity Exchange in the 21st Century project creates carbon credits through the regeneration of native forest on private land – see www.ebex21.co.nz
