

Summary of carboNZero certification:

Southland Copier Company Limited

Southland Copier Company Limited meets the requirements of the carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1: 2006, committed to managing and reducing its emissions and neutralised its remaining unavoidable emissions through the cancellation of an appropriate number of verified carbon credits in respect of the operational activities of its organisation.

southland copier company

Introduction¹ – Southland Copier Company Limited is an Exclusive Authorised Ricoh Dealership that specialises in document printing and management solutions in the Southland area. Based on the requirements of Landcare Research's carboNZero programme, Southland Copier Company Limited has identified and prioritised cost effective opportunities for the ongoing reduction of Greenhouse Gas (GHG) emissions in the business. This plan includes initiatives aimed at directly reducing emissions, as well as intentions to develop relevant plans for future implementation, and plans directed at raising awareness and assisting culture change. For Southland Copier Company Limited, taking responsibility for the impacts its business has on the environment is central to the way it conducts its business. This GHG reduction plan, as with the carboNZero programme, is fully supported by directors and managers of Southland Copier Company Limited.

Boundary – The boundary for the preparation of Southland Copier Company Limited's greenhouse gas (GHG) inventory is for one site. All business activities have been included.

Consolidation approach – operational control

Base year – 01/04/2009 to 31/03/2010

Measurement period – 01/04/2010 to 31/03/2011

Emissions source inclusions – the diagram below shows the operational GHG emissions for Southland Copier Company Limited by emissions source. Southland Copier Company Limited's total emissions for this period were 33.13 tonnes carbon dioxide equivalents (tCO₂e) comprising:

Scope 1: 19.14 tCO₂e

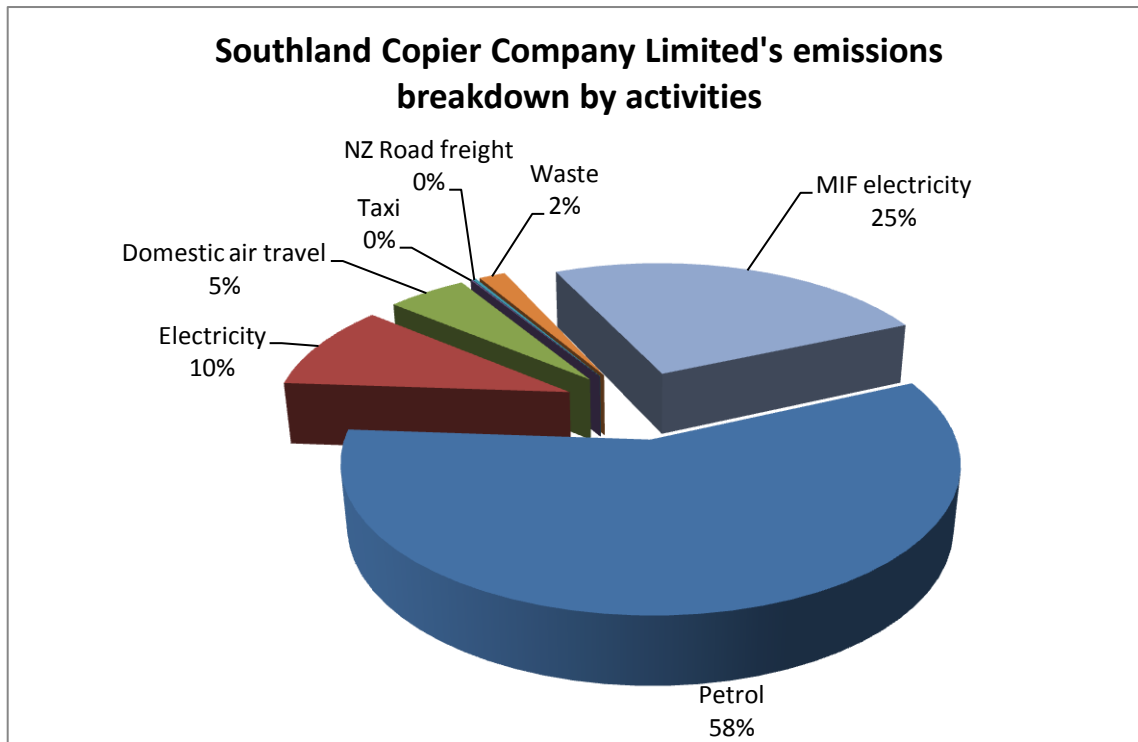

Scope 2: 3.29 tCO₂e

Scope 3: 10.07 tCO₂e

¹ **Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. While every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Landcare Research does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

Summary of carboNZero certification:

Southland Copier Company Limited

Emissions source exclusions – Couriers have been omitted from the inventory on the basis that all parcels are less than 2kg which is *de minimis*. Machines in Field (MIF) electricity consumption for non-energy efficient machines are excluded from the inventory as these are outside of the operational boundary.

Emissions reduction commitments – Southland Copier Company Limited has developed a GHG emissions reduction plan. Some projects in this plan include:

- Reduce electricity by 2% per FTE
- Reduce fuel emissions by 2% per company vehicle
- Reduce waste to landfill by 2% per FTE by increasing recycling

Offset – 34 tCO₂e. Beijing 48 MW Guanting Wind Power Project. Serial numbers 10011968 - 10012001 have been cancelled (or equivalent) on the Markit Environmental Registry.

Verified by – Green Fox Consulting Limited

Threshold of materiality – excluded emissions do not exceed 5% of the total footprint for organisation boundary stated.

Summary of carboNZero certification:

Southland Copier Company Limited

Level of assurance – Limited assurance

Certification status – carboNZero certified “organisation”

Certificate number – 2011114J

Valid until – 31 July 2014
