

## Summary of carboNZero certification:

### Spicers Paper, a division of Paperlinx (NZ) Limited 9lives coated paper

*Spicers Paper, a division of Paperlinx (NZ) Limited meets the requirements of carboNZero<sup>Cert™</sup> product certification having measured the business-to-business life cycle greenhouse gas emissions of its selected paper products, committed to managing and reducing the emissions intensity of the product and neutralised the remaining unavoidable emissions through the cancellation of an appropriate number of verified carbon credits in respect of the '9lives' branded coated unprinted paper produced at Burgo Group's Avezzano and Sora Mills in Italy and distributed and sold within New Zealand.*

**Introduction<sup>1</sup>** – This public declaration presents<sup>2</sup> certified information about Paperlinx (NZ) Limited's 9lives coated paper. This declaration is for a carbon footprint aligned with PAS 2050 using the methods detailed in the Programme product footprint specification for unprinted paper.

**Company climate change policy** – Spicer's Paper is part of the PaperlinX Group. The PaperlinX Group has a Sustainable Development Charter and a Safety, Health and Environment Policy. Annual sustainable development reports are publicly available at [www.paperlinx.com](http://www.paperlinx.com).

**Product description** – The function of Spicer's Paper 9lives coated is an unprinted fine paper product, used for printing and writing purposes. The product group includes paper products used for a wide range of downstream purposes. This product system excludes emissions associated with the printing of a paper product. 9lives coated paper uses pulp which has 55% recycled paper content. The functional unit considered in this analysis is tCO<sub>2</sub>e per tonne of '9lives coated' paper.

Also known as Monza 55, it is produced at the Burgo Group's Avezzano Mill and Sora Mill and distributed to customers throughout New Zealand. The Burgo Group accounts for and reports GHG emissions from Avezzano and Sora Mills as part of their preparation for the CEPI 'ten toes' methodology.

A full list of paper types covered by this certification is provided at the end of this disclosure statement.

---

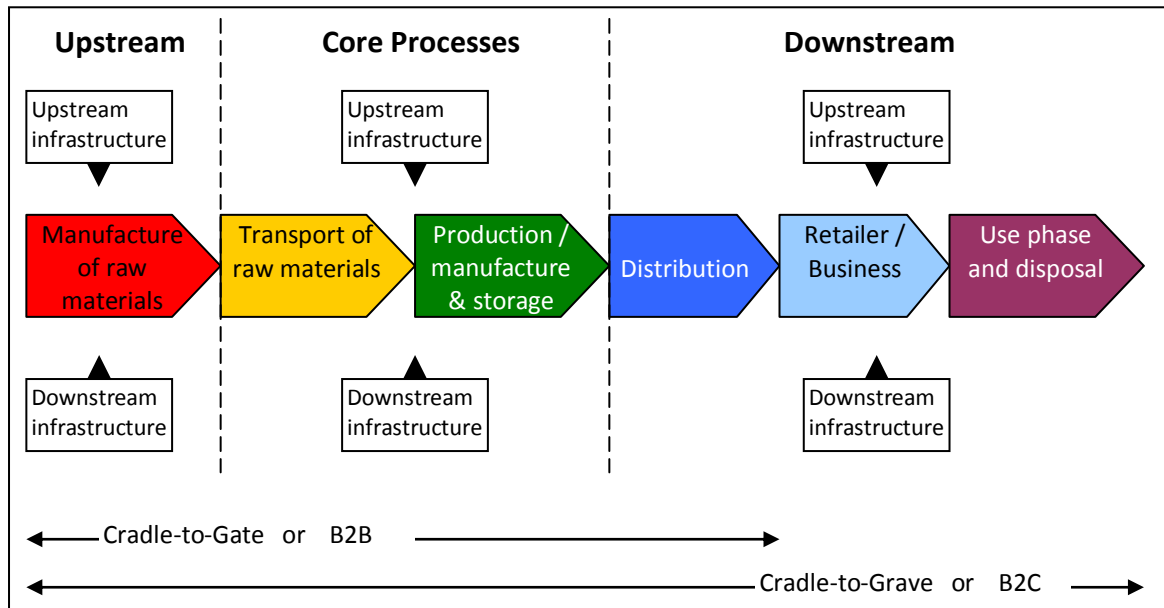

<sup>1</sup> **Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. While every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Landcare Research does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information. The product carbon footprint information disclosed in this statement should not be used to make comparisons with other products/services unless the same methodologies, scope and boundaries have been applied.

## Summary of carboNZero certification:

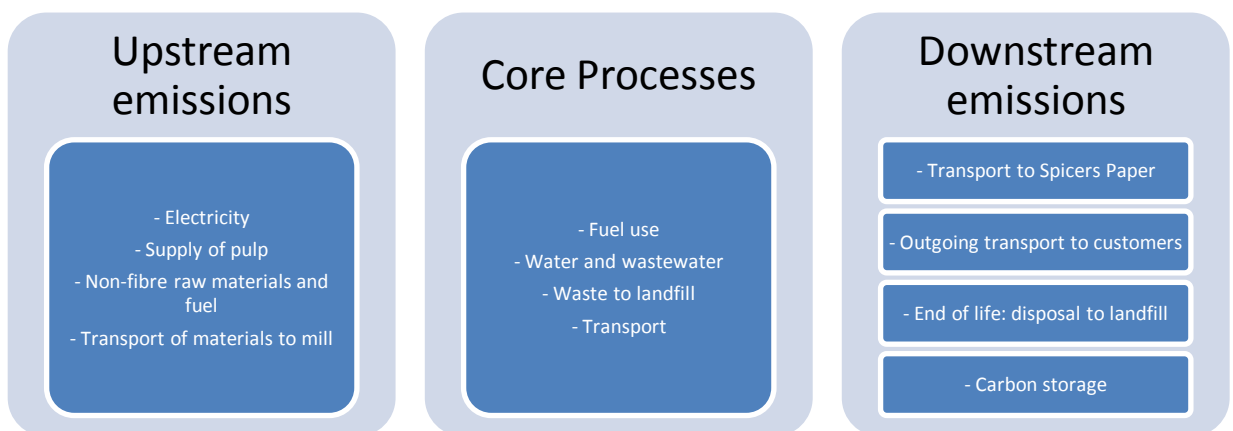

Spicers Paper, a division of Paperlinx (NZ) Limited  
9lives coated paper

**Scope and boundary** – the product carbon footprint is for “business-to-business (cradle-to-gate)” scope.

**Figure 1:** Life cycle phases for product.

The diagram below shows the life cycle diagram used for describing the greenhouse gas emissions associated with 9lives coated paper, and provides an overview of what unit processes were included in the product carbon footprint.

**Figure 2:** Emissions sources for product for life cycle phases.

## Summary of carboNZero certification:

Spicers Paper, a division of Paperlinx (NZ) Limited  
9lives coated paper

**Base period** – 01/08/2009 - 31/07/2010

**Measurement period** –01/08/2009 - 31/07/2010

**Emissions and removals** – the table below shows the GHG emissions included for each life cycle stage and unit process. The weighted average emissions intensity for paper from both mills was **1.772** tCO<sub>2</sub>e per tonne unprinted paper.

**Table 2:** Emissions and removals by emissions source.

<b>Emissions category</b>	<b>Avezzano Mill tCO<sub>2</sub>e / tonne product</b>	<b>Sora Mill tCO<sub>2</sub>e / tonne product</b>
Fuel use at Mills	1.073	0.74
Purchased electricity and steam	0.056	0.271
Non-fibre raw materials & fuel	0.194	0.137
Mill waste	0.038	0
Mill transport	0.018	0.017
Mill to PaperlinX transport	0.262	0.251
Transport to client	0.0211	0.0211
Emissions from landfill	0.383	0.383
Carbon stored in product	-0.127	-0.127
<b>Total (business-to-business)*</b>	<b>1.9179</b>	<b>1.6930</b>

<b>Emissions by category</b>	<b>tCO<sub>2</sub>e / tonne product</b>	<b>tCO<sub>2</sub>e / tonne product</b>
<b>emissions to mill gate</b>	1.379	1.165
<b>emissions to consumer</b>	1.662	1.437
<b>business-to-business*</b>	1.918	1.693

\*This does not include post-gate activities such as printing emissions but does include landfill emissions.

## Summary of carboNZero certification:

Spicers Paper, a division of Paperlinx (NZ) Limited  
9lives coated paper

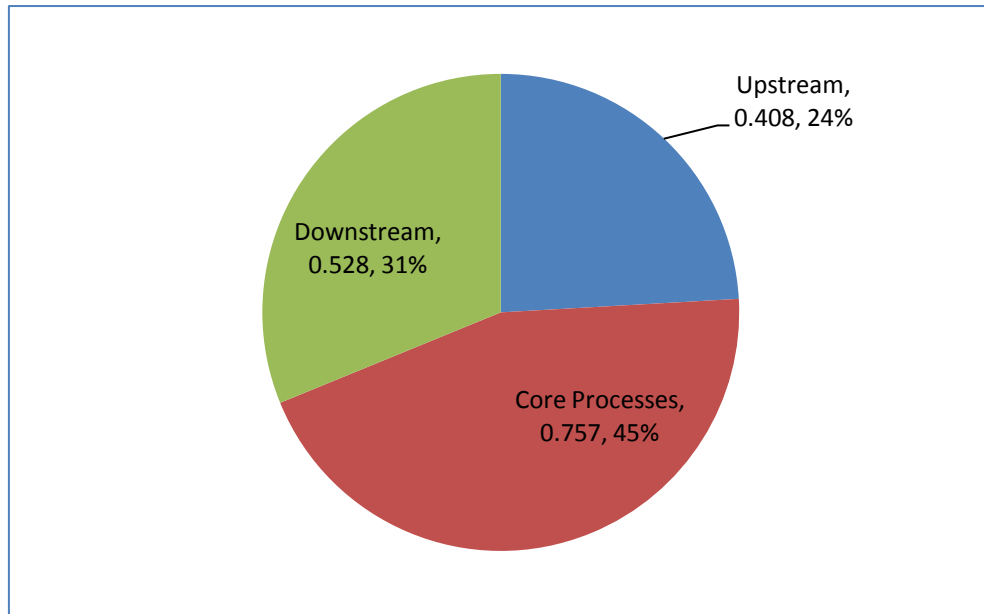

Figure 3: GHG emissions (tCO<sub>2</sub>e/tonne) by life cycle stage – Sora Mill

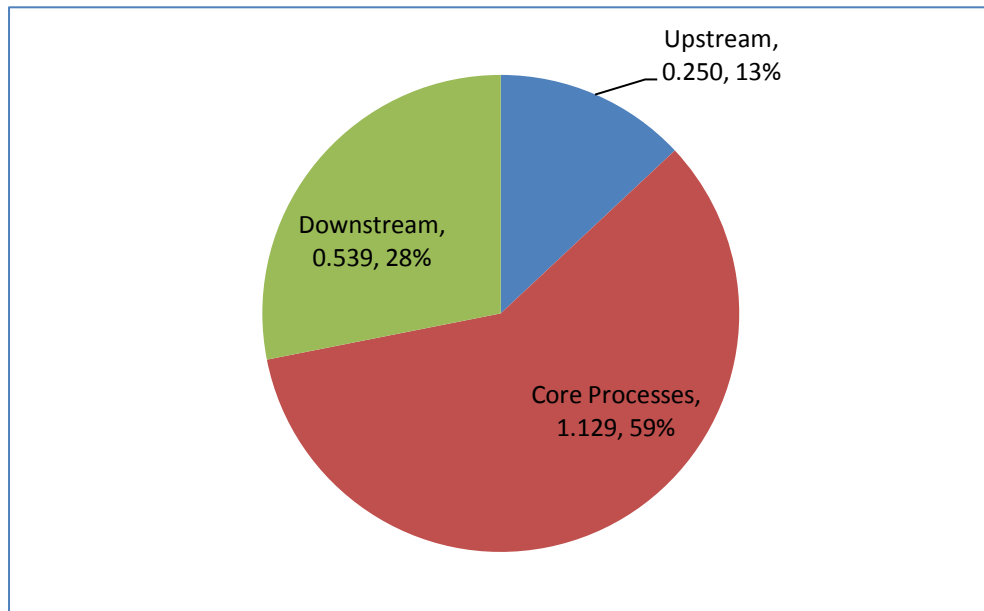

Figure 4: GHG emissions (tCO<sub>2</sub>e/tonne) by life cycle stage – Avezzano Mill

### Exclusions –

- Embodied emissions in forestry equipment have been excluded. This is in line with the carboNZero programme product specification for paper.

## Summary of carboNZero certification:

### Spicers Paper, a division of Paperlinx (NZ) Limited 9lives coated paper

- Deforestation - these paper products are FSC certified and are therefore considered to be sustainably sourced. It is assumed that there are no emissions occurring from deforestation.
- Embodied emissions in mill equipment have been excluded. This is in line with the carboNZero programme product specification for paper.
- On-site wastewater treatment is filtered heavily and therefore further treatment downstream is considered to not be required. Energy use on-site for wastewater filtering is included within the boundaries.
- Emission from business overheads such as in design and marketing and energy to run other activities are not included as they are not considered specific to this product.
- Use phase emissions are excluded as no further emissions are expected to result until the disposal phase of the paper.

**Data quality** – 4.02% of the data for the paper made at the Avezzano Mill was from primary data and 2.25% for the Sora Mill. Overall, the data quality has been assessed for both mills as 'poor'.

**Emissions reduction commitments** – Spicers Paper has developed a GHG emissions reduction plan that includes the 9lives coated paper product. Some projects in this plan include:

- increasing waste recycling within Spicers Paper
- reduce fuel usage through advising staff on useful reduction measures
- electricity saving challenge for Spicers Paper employees

**Offset** – 228 tCO<sub>2</sub>e. compliance units from EBEX21<sup>3</sup> Permanent Forest Sinks Initiative (PFSI) native forest regeneration projects. Serial numbers 801270 to 801497 have been cancelled (or equivalent) on the carboNZero register.

The offset commitment is based on an average tCO<sub>2</sub>e per tonne of paper sold in advance for each mill and not based on individual SKUs. An annual wash-up will be conducted to reconcile the credits offset in advance versus the actual paper sold.

Below is the schedule for credit purchases:

June 2011	3 months in advance
October 2011	3 months in advance
February 2012	3 months in advance
June 2012	Annual wash-up

<sup>3</sup> EBEX21 – Emissions Biodiversity Exchange in the 21<sup>st</sup> Century project creates carbon credits through the regeneration of native forest on private land – see [www.ebex21.co.nz](http://www.ebex21.co.nz)

## Summary of carboNZero certification:

Spicers Paper, a division of Paperlinx (NZ) Limited  
9lives coated paper

**Verified by** – carboNZero Strategic Business Unit

**Materiality** – excluded emissions do not exceed 10% of the total footprint for organisation and product boundary stated. The product carbon footprint has been pro-rated to 100% in order to determine the number of offsets required.

**Level of assurance** – Limited assurance

**Certification status** – carboNZero certified product with a B2B boundary

**Certificate number** – 2011050

**Valid until** – 31 March 2014

**Note:** Spicers Paper has achieved CEMARS certification for its organisation and there is a separate disclosure page available.
