

Summary of carboNZero certification: Fleetwise

Introduction – Transport Fleet Management Ltd (Fleetwise) is an independent vehicle management professional specialising in outsourced fleet management solutions. Their services include:

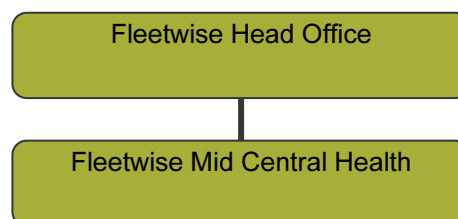

- Analysis of a company's vehicle requirements.
- Help to source fleet vehicles - lease or purchase.
- Fleet management and administration.
- Monthly management reporting.
- Traffic infringement and insurance claims administration.
- Fleet performance benchmarking.
- Settlement of all transport related accounts.
- Web based real time on-line reporting.

Fleetwise provide fleet management and administration services for light and heavy vehicle fleets and a wide range of plant assets. Fleetwise is based in Palmerston North.

As part of attaining carboNZero certification, Fleetwise measured all activities causing greenhouse gas (GHG) emissions and implemented reduction programmes to address the largest sources of emissions.

Fleetwise is wholly committed to the principles of sustainability. They believe that the adoption of environmentally responsible business practices for themselves, and on behalf of their clients, makes a positive contribution towards preserving and improving the environment for future generations. It is simply good business.

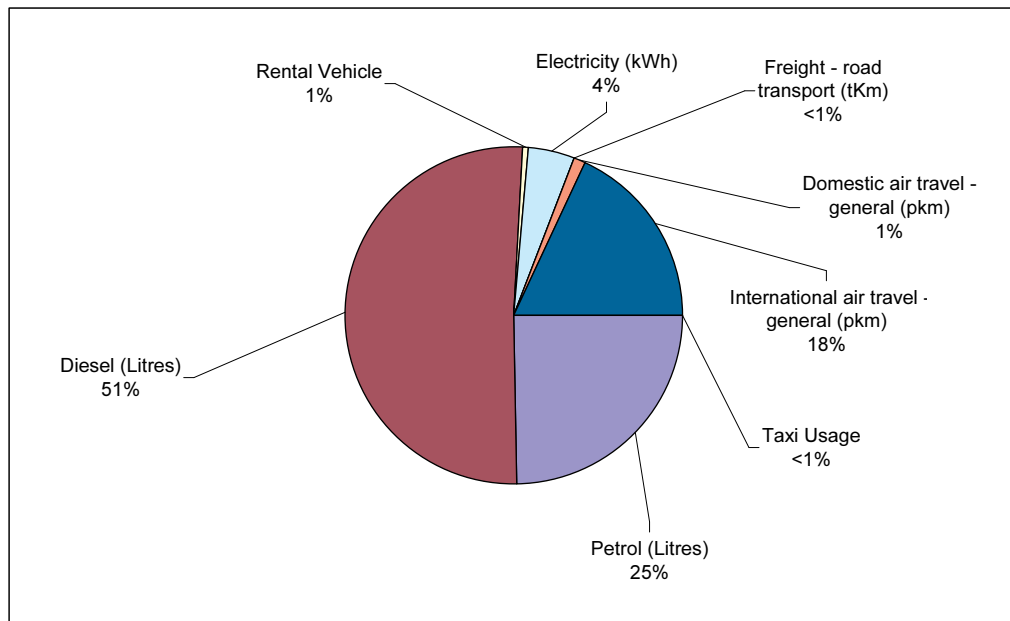

Boundary – All Fleetwise business activities were included in their emissions inventory.

Consolidation approach – operational control

GHG emissions profile – the diagram below shows the operational GHG emissions for Fleetwise by emissions source. Fleetwise total emissions for this period were 77.7 tonnes carbon dioxide equivalents (CO₂e)

Summary of carboNZero certification: Fleetwise

GHG emissions reduction commitments – Fleetwise has developed a GHG emissions reduction plan. Some projects in this plan include:

- Fuel use (through travel planning, vehicle maintenance and driver habits)
- International air travel
- Electricity use

Offset – 78 tonnes CO₂e. VERs¹ from a PRE² wind farm project were cancelled.

Verified by – PriceWaterhouseCoopers.

Base year – 01/10/2006 to 30/09/2007.

Certification status – carboNZero certified “organisation” covering all operational emissions i.e. the building electricity consumption, domestic road and air travel, international air travel and freight.

Valid until – 31 December 2008.

¹ VERs are created by eligible projects for emissions reductions achieved up to the end of 2007.

² PRE - Projects to Reduce Emissions is a New Zealand government scheme for projects that are eligible under the Joint Implementation initiative of the Kyoto Protocol – see www.mfe.govt.nz
