

Kiwi Does It Ltd

Kiwi Does It Ltd meets the requirements of carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1, committed to managing and reducing its emissions and neutralised the remaining unavoidable emissions in respect of the operational activities of its organisation.

Introduction¹ – Kiwi Does It Ltd promotes New Zealand through active, adventure-based luxury travel itineraries using the country's top accommodations, events and operators. As we are in the travel industry where flights, vehicles, accommodations and activities are all an everyday necessity, KDI is very dedicated to minimise and offset any emissions. Not only for our promotion but stemming from a real belief that it is either now or never to potentially save our planet, we believe the carboNZero certification will benefit our industry as a whole. Ecolodges, conscious operators and offsetting flights are just small ways we can help. carboNZero is a hugely respected certification and by passing through the process we hope to attract more environmentally conscious travellers that will have a beneficial spin-off effect.

Boundary – The boundary for the preparation of Kiwi Does It Ltd's greenhouse gas (GHG) inventory is for one site. All business activities have been included.

Consolidation approach – Operational control.

Base year – 1/02/2009 to 31/01/2010

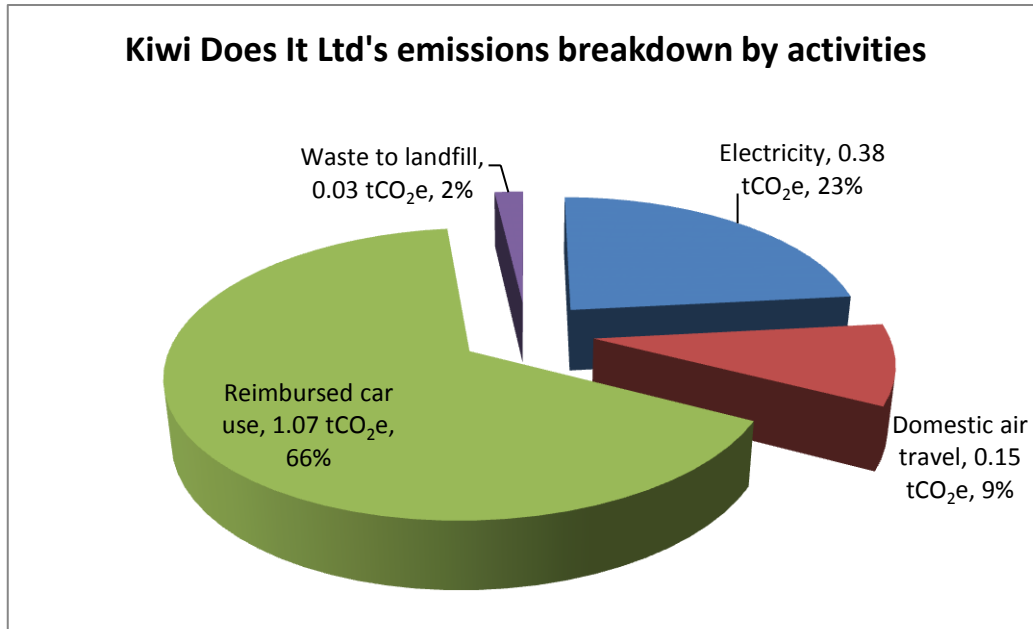

Measurement period – 1/02/2009 to 31/01/2010

GHG emissions source inclusions – The diagram below shows the operational GHG emissions for Kiwi Does It Ltd by emissions source. Total emissions for this period were 1.63 tonnes carbon dioxide equivalents (tCO₂e). The breakdown for the total emissions by Scope was Scope 1: 0.00 tCO₂e; Scope 2: 0.38 tCO₂e and Scope 3: 1.25 tCO₂e.

GHG emissions source exclusions – Emissions associated with operators used in client Itineraries was excluded from this inventory.

It should not be taken to represent the full submission for certification. While every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Landcare Research does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

Kiwi Does It Ltd

GHG emissions reduction commitments – Kiwi Does It Ltd has developed the following emissions management goals:

- Reduce car use emissions by using scooter instead of car
- kWh reductions through power-usage awareness and minimisation
- Monitor the amount of dollars spent per month on carbon offsets

Offset – 2 tonnes CO₂e. AAUs² from Trustpower Hydro projects created under the New Zealand Government's PRE³ scheme. Serial numbers 501935-501936 have been cancelled (or equivalent) on the carboNZero registry.

Verified by – carboNZero Strategic Business Unit

Level of assurance – Reasonable assurance

Threshold of materiality – Excluded emissions do not exceed 5% of the total footprint for the small enterprise boundary stated.

Certification status – carboNZero certified small enterprise covering all operational emissions at one site.

² AAUs are created by eligible projects for emissions reductions achieved up to the end of 2007.

³ PREs are Projects to Reduce Emissions is a New Zealand government scheme for projects that are eligible under the Joint Implementation initiative of the Kyoto Protocol – see www.mfe.govt.nz.

Summary of carboNZero certification:  carboNZero
