

Oceania Printing Technologies Ltd (Ricoh dealership)

Oceania Printing Technologies Ltd meets the requirements of carboNZero^{Cert™} certification having measured its greenhouse gas emissions in compliance with ISO 14064-1, committed to managing and reducing its emissions and neutralised the remaining unavoidable emissions in respect of the operational activities of its organisation excluding Ricoh South Pacific operations in Tonga.

Oceania Printing Technologies Ltd

Introduction¹ – Oceania Printing Technologies Ltd (OPTL) is wholly New Zealand owned operation. OPTL is an Exclusive Authorised Ricoh Dealership that specialises in document printing and management solutions in New Zealand and throughout the entire South Pacific. OPTL recognises environmental sustainability as critical to its business activities. Consequently OPTL has proudly accepted responsibility to ensure and pursue ongoing sustainability in its operations. Through the carboNZero certification programme, OPTL has been able to underline its commitment to the environment. The programme assists OPTL to measure and monitor its emissions as well as take steps to reduce those emissions in the long-term. This develops a culture of environmental sustainability and reflects OPTL's commitment to sustainability in its New Zealand operations.

Boundary – The company is based in Auckland New Zealand and Nukualofa, Tonga. The boundary for the preparation of Oceania Printing Technologies Limited's greenhouse gas (GHG) inventory is for the New Zealand operations only. All business activities for the Auckland site have been included. Ricoh South Pacific operations in Tonga were excluded from the emissions inventory.

Consolidation approach – Operational control.

Base year – 01/04/2009 to 31/03/2010

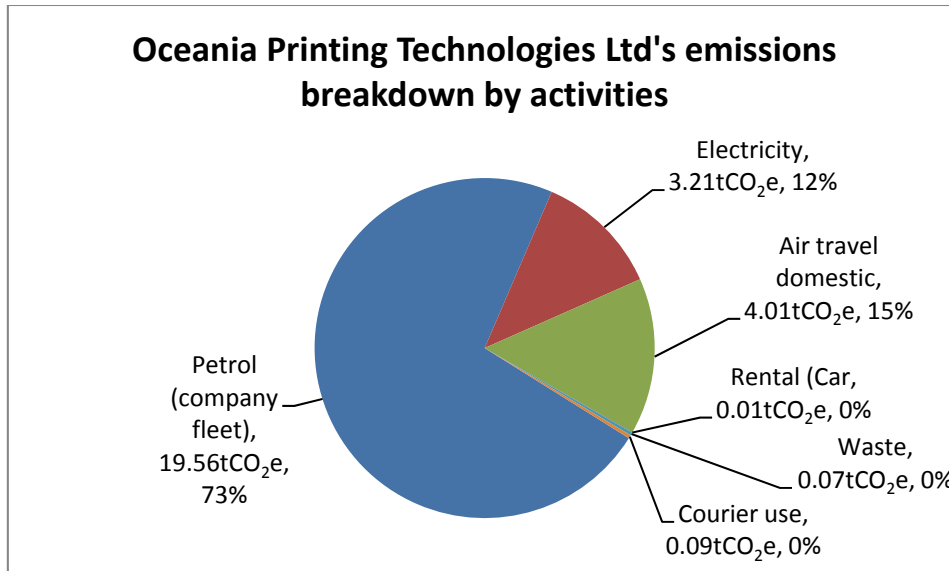

Measurement period – 01/04/2009 to 31/03/2010 (projected)

GHG emissions source inclusions – The diagram below shows the operational GHG emissions for Oceania Printing Technologies Ltd by emissions source. Total emissions for this period were 26.96 tonnes carbon dioxide equivalents (CO₂e).

GHG emissions source exclusions – Emissions related to business activities relevant to the Nukualofa (Tonga) office have been excluded.

Oceania Printing Technologies Ltd (Ricoh dealership)

GHG emissions reduction commitments – Oceania Printing Technologies Ltd has developed the following emissions management goals:

1. Reduce the amount of fuel used by our company cars by at least 5% by the end of the financial year by;
 - a) Purchasing more fuel efficient vehicles;
 - b) Train staff to adopt more efficient driving behaviour
 - c) Use teleconferencing for meetings;
 - d) Scheduling multiple meetings/outcomes per trip.
2. Reduce electricity usage by at least 5% by the end of the financial year by;
 - a) Turning off all computer equipment when not in usage
 - b) Measure and compare electricity usage every month.
3. Identify alternatives for electricity supply by the end of the financial year by;
 - a) Assessing other electricity providers to try and use carbon-neutral electricity to eliminate the need to offset electricity usage in operations.

Offset – 27 tonnes CO₂e. VERs² from TrustPower Tararua II PRE windpower³ project. Serial numbers 342655 – 342681 cancelled in the carboNZero programme register.

Verified by – carboNZero Strategic Business Unit

Level of assurance – Limited assurance

² VERs are created by eligible projects for emissions reductions achieved up to the end of 2007.

³ PRE - Projects to Reduce Emissions is a New Zealand government scheme for projects that are eligible under the Joint Implementation initiative of the Kyoto Protocol – see www.mfe.govt.nz.
