

## Summary of carboNZero certification:

### Resourceful Solutions Limited

(formerly trading as GreenWork Limited and RVP Resource Group Limited)

*Resourceful Solutions Limited (formerly trading as GreenWork Limited and RVP Resource Group Limited) meets the requirements of the carboNZero<sup>Cert™</sup> certification having measured its greenhouse gas emissions in compliance with ISO 14064-1: 2006, committed to managing and reducing its emissions and neutralised the remaining unavoidable emissions in respect of the operational activities of its organisation.*

**Introduction<sup>1</sup>** – Resourceful Solutions Limited was formerly traded as GreenWork Limited and then RVP Resource Group Limited. GreenWork provided property maintenance, landscaping and organic waste removal services in the Auckland area. Resourceful Solutions Limited provides organic waste removal services in the Auckland area.

Resourceful Solutions Limited is committed to reducing our environmental impact and that of our clients. We realise the impacts that climate change will have on the environment so minimising our GHG emissions is an important part of what we do. We have been measuring our emissions since April 2009 and the major source of our emissions comes from our vehicle use. We are focusing on reducing our vehicle emissions per employee by 5% over the next 12 months. To achieve this we are taking steps to improve our job planning and transport logistics, carpooling where possible, keeping our vehicles well maintained and conducting our weekly safety and planning meetings by Skype. For us this is just a start, we aim to constantly lessen our impacts and reduce our emissions over time. We have cancelled a total of 14 carbon credits for the inventory ending on 31 March 2011 and chosen to purchase the credits from renewable energy generation projects. We see renewable energy technology as a hugely positive step to combating climate change and are very pleased to support these projects. We look forward to a future where we do not have to rely on energy generated through fossil fuels.

**Boundary** – The boundary for the preparation of resourceful Solutions Limited's greenhouse gas (GHG) inventory is for one site. All business activities have been included.

**Consolidation approach** – operational control

**Base year** – 01/04/2009 to 31/03/2010

**Measurement period** – 01/04/2010 to 31/03/2011

---

## Summary of carboNZero certification:

### Resourceful Solutions Limited

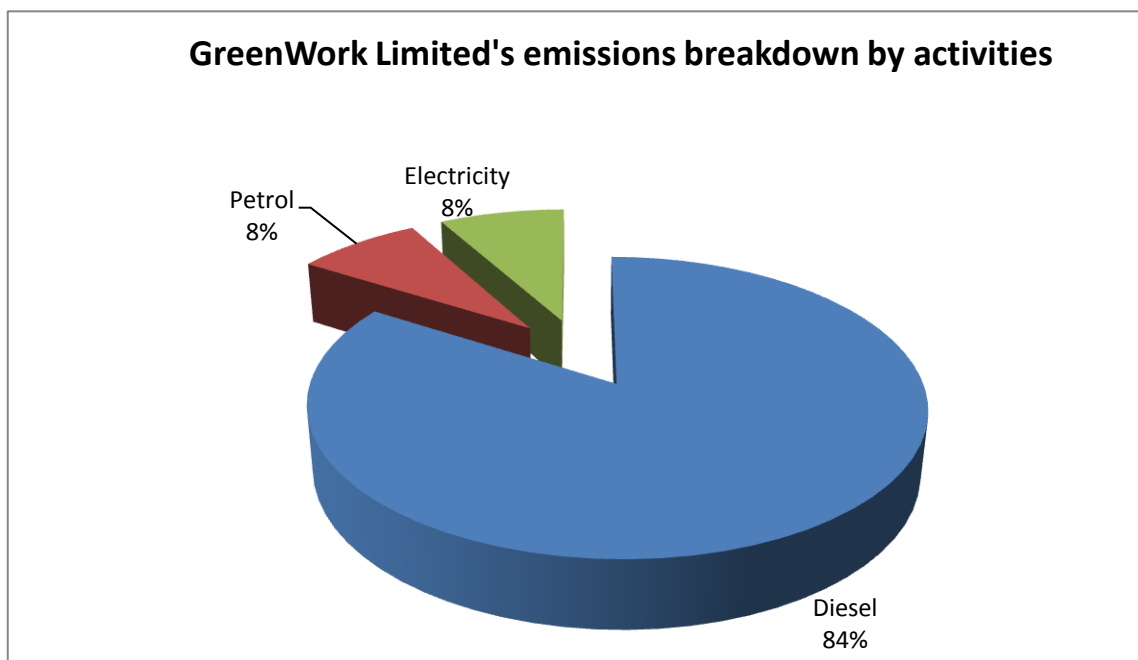

(formerly trading as GreenWork Limited and RVP Resource Group Limited)

**GHG emissions source inclusions** – the diagram below shows the operational GHG emissions for GreenWork Limited by emissions source. GreenWork Limited's total emissions for this period were 13.90 tonnes carbon dioxide equivalents (tCO<sub>2</sub>e) comprising:

Scope 1: 12.78 tCO<sub>2</sub>e

Scope 2: 1.12 tCO<sub>2</sub>e

Scope 3: 0.00 tCO<sub>2</sub>e

**GHG emissions source exclusions** – Packaging waste from landscaping and garden maintenance was excluded as it was *de minimis*.

**GHG emissions reduction commitments** – Resourceful Solutions Limited has developed a GHG emissions reduction plan. Some projects in this plan include:

- Minimise diesel consumption by better job management
- Purchase renewable energy generation

**Offset** – 14 tCO<sub>2</sub>e. Meridian Gold Standard Windpower Projects. Serial numbers 417780-417793 have been cancelled (or equivalent) on the Markit Environmental Registry.

**Verified by** – Green Fox Consulting Limited.

## Summary of carboNZero certification:

### Resourceful Solutions Limited

(formerly trading as GreenWork Limited and RVP Resource Group Limited)

**Threshold of materiality** – excluded emissions do not exceed 5% of the total footprint for organisation and product boundary stated.

**Level of assurance** – Reasonable assurance

**Certification status** – carboNZero certified “organisation”

**Certificate number** – 2011198J

**Valid until** – 31 July 2014
